ABOUT ME

Full-Stack developer specializing in React, Next.js, and TypeScript, I build complete applications from front-end to back-end. My projects speak for themselves: a client-side end-to-end encrypted chat app, e-commerce stores with Stripe payments, and a stock management dashboard with quantity and stock value tracking. I integrate AI tools like Cursor and Codex into my workflow to accelerate development while keeping the code clean, maintainable, and high-quality. Ready to bring this approach to a product team.

SKILLS

FRONT-END	`React.js, Next.js, TypeScript, TailwindCSS, SCSS, Styled-Components`
BACK-END	`Node.js, Elysia, Zod, Firebase, Prisma, Drizzle ORM, MongoDB`
TOOLS	`Git, Vercel, Bun, Stripe, Clerk, Sanity, Zustand, Redux, Codex, Cursor`

PROJECTS

Upcheck - `https://upcheck.autem.dev` 2026

- Built a Next.js and TypeScript tool to analyze GitHub and package.json dependencies.
- Implemented version and vulnerability checks using the npm registry and OSV.
- Generated update commands, AI prompts, and updated manifests for Bun, npm, pnpm, and Yarn.

Temporis - `https://temporis.autem.dev` 2026

- Developed ephemeral chat rooms with automatic expiry using Next.js and Upstash Redis.
- Implemented client-side end-to-end message encryption via Web Crypto API (AES-GCM).
- Created an end-to-end typed API with Elysia and Eden Treaty, consumed via TanStack Query.

DressCode - `https://dresscode.autem.dev` 2026

- Built a headless e-commerce storefront with Next.js, with a catalog managed in Sanity CMS.
- Integrated secure online payments with Stripe and user account management via Clerk.
- Managed shopping cart state with Zustand, preserving selected items and quantities across page refreshes.

Style-D - `https://style-d.autem.dev` 2025

- Developed a responsive online store for mobile and desktop with React, Vite, and styled-components.
- Integrated Google authentication via Firebase Auth, with user order history stored in Firestore.
- Implemented secure card payments via Stripe and reactive cart state management with Zustand.

EDUCATION

Complete React Developer, Redux, Hooks - Zero To Mastery Academy 2022

The Web Developer Bootcamp - Colt Steele 2021

Bachelor's Degree LLCER - Foreign and Regional Languages, Literatures and Civilizations - Sorbonne Nouvelle - Paris 3 2014

LANGUAGES

English - Fluent **French** - Fluent **German** - B1
